

**BSA Crew-911 offers Wilderness First Aid Training!
Saturday-Sunday May 4 & 5, 2024**

The historic Josey Scout Lodge in Huntsville, Texas is the location for our Spring 2024 American Red Cross WaRFA (Wilderness and Remote First Aid) class! This is the perfect venue for our overnighter training program designed especially for BSA Venturing age youth attending with their adult leaders. Our program meets all BSA-National Wilderness First Aid training requirements for Philmont, The Summit, Sea Base, Northern Tier and recommended for all units planning other High Adventure activities.

BSA Crew-911 based in Conroe-The Woodlands sponsors this WaRFA with lots of help from our many volunteer Scouting friends. We have taught American Red Cross training programs to over 30,000 Scouts and Scouters since our beginnings in 1991 as an ARC youth club and Sam Houston Area Council canoe training resource.

Course fees for WaRFA are \$135.00/person, youth or adult, and include training materials, overnight camping on the lodge property, meals beginning with Saturday lunch through Sunday lunch plus an optional youth oriented program Friday night. WaRFA participants traveling long distances for our class or just for convenience may check in Friday night after 6:00 p.m. Scholarships are available for youth participants with a true need—we have never turned a youth member away from our programs over cost.

WaRFA builds on basic First Aid skills—participants learn to see a medical emergency through the eyes of a First Responder. In a wilderness or delayed care situation, professional help may be several hours, or days away—**so YOU and your crew ARE 911!** WaRFA will prepare you to respond with confidence!

Class begins promptly at 9:00 a.m. on Saturday and wraps up after 3:00 p.m. on Sunday.

We designed our program especially for Scout youth participants and members of other approved youth organizations, fourteen and older, who are training with their adult leaders.

BSA Crew-911's WaRFA is Fun!
